

//Day 3 coding Statement: Write a program to find ASCII values of a character

```
package vowel;
```

```
import java.util.*;
```

```
public class Vowel {
```

```
    public static void main(String[] args) {
```

```
        Scanner sc=new Scanner(System.in);
```

```
        char ch=sc.next( ).charAt(0);
```

```
        int ascii=ch;
```

```
        System.out.println(ascii);
```

```
    }
```

```
}
```
