```java
/*Day 39 coding Statement : Write a Program to check if two strings are Anagram or not*/

import java.util.*;
public class Main
{
        public static void main(String[] args) {
        Scanner sc=new Scanner(System.in);
        String s=sc.nextLine();
        String s1=sc.nextLine();
        int flag=0;
         if(s.length() != s1.length()){
            System.out.println("not");
         }
         else{
            for(int i=0;i<s.length();i++){
               flag=0;
               for(int j=0;j<s.length();j++){
                  if(s.charAt(i)==s1.charAt(j)){
                     flag=1;
                     break;
                  }
               }
               if(flag==0){
                  break;

               }
            }
            if(flag==1){
               System.out.println("yes");
            }
```

```java
        else{
            System.out.println("no");
        }

    }

}}
```
