```java
//Day 20 coding Statement : Write a program to identify if the number is Prime number or not
package vowel;
import java.util.*;

public class Vowel {

    public static void main(String[] args) {

        Scanner sc=new Scanner(System.in);
    System.out.println("Enter n:");
    int n=sc.nextInt();
    int count=0;
    if(n<=1){
      System.out.println("It is not a prime number");
    }
    else{
      for(int i=2;i<=n;i++){
        if(n%i==0){
        count++;}
      }
      if(count>2){
        System.out.println("It is not a prime number");
      }
      else{
        System.out.println("It is a prime number");
      }
    }

  }}
```
